

ELGIN NEWBORN AND MOM WELL BABY CLINIC.
101-2255 Elgin Avenue
Port Coquitlam, V3C 2B4
Ph 604 614 0134

February 1, 2021

As of March 31, 2021, the newborn clinic will be closing due to funding issues.

Thank you for attending our clinic and we hope we have done our best to look after you and your newborn to the best of our ability.

There are 3 issues that need to be addressed:

- 1) Finding your new family doctor. Please sign up on maternityhub.ca if you have not done so to join the waitlist for a new family physician.
- 2) Please book your follow up vaccinations with the public health unit in your area or with your family doctor.
- 3) We will need to transfer your records to your new clinic as soon as possible since after March 31, 2021, it will be much more difficult to access your records and the phone number will no longer be accessible.

We will be trying to reach out to as many patients and moms who have attended our clinic to ensure that we can pass your medical information to your new provider.

For all the staff at the newborn clinic, we thank you for trusting us to look after your new family in the past year.

Yours sincerely,

Grover Wong, M.D., C.F.P.C.
